The Glenn County Master Gardener Program is the newest county Master Gardener Program; currently there are more than 40 California counties that have UCCE Master Gardener Programs. The purpose of the UC Master Gardener Program is to extend to the public research-based agricultural information, that has been verified by UC Experts, about home horticulture, pest identification, landscape management and other environmental and natural resource issues. Master Gardeners will extend agricultural information to the community by giving talks and demonstrations, staffing phone help-lines in the Glenn County UCCE office, helping to collect data for UC researchers, and much more.
