# GLENN COUNTY COOPERATIVE EXTENSION NEWS FLASH

November 2, 2011

## **GLENN COUNTY MASTER GARDENERS OFFER GREENHOUSE WORKSHOP**

Glenn County Master Gardeners are presenting a workshop “Building Your Own Greenhouse” at the Vince Simons Arena at the Orland Fairgrounds on Saturday, November 19, from 10:00 a.m. until Noon. The cost of this workshop is \$10.00. The workshop will include a demonstration of how to build a cost-effective PVC greenhouse simply and easily. Glenn County Master Gardeners will discuss such factors as location, ventilation, temperature control, soil, fertilization and suitable greenhouse plants. Information on high tunnel gardening will also be presented.

The workshop is appropriate for anyone who wants to garden all year around. Every season has its greenhouse uses. In the winter, greenhouses can protect patio plants and other containerized woody plants. The spring can be a time for germinating and growing bedding and vegetables. Summer uses include propagating root cuttings, and in the fall, the year around gardener can start winter vegetables.

The workshop will also give the public an opportunity to order gardening and orchard books from the University of California including the “California Master Gardener Handbook”, an indispensable 702 page text of gardening information backed by research from the University.

Payment for the workshop can be made at the Fairgrounds on the day of the workshop or register online by credit card at the Glenn County Master Gardener website, [http://ucanr.org/sites/glenmg/Greenhouse\\_Workshop/](http://ucanr.org/sites/glenmg/Greenhouse_Workshop/).

The event will be held outdoors under cover, rain or shine. It promises to be a great chance to learn about greenhouses as well as meet your neighbors, the Glenn County Master Gardeners, in person.
