## Countywide Photography Project

For this countywide project, you will need a Digital Camera . A compact Digital is fine. The project will cover basic photography, digital shooting modes (landscape, macro, portrait, etc.), natural and flash lighting techniques, and composition. A meeting will be held on how to properly mat your photos for entry in the fair in April.

For those with DSLR Camera, topics will include how to obtain correct exposure using ISO, aperture, and shutter speed, as well as an introduction to White Balance.

Our goal is to help you become better photographers, while having fun! We will spend a lot of time taking photos and plan on going on several photo field trips (usually Saturdays or Sundays). This will include shooting when the light is good - early mornings, as well as late afternoon/evenings.

We will meet once a month starting in October (no meeting in December). For more information, contact Leader Sharon Barker at 934-4245 or [barkersn@yahoo.com](mailto:barkersn@yahoo.com).
