## **CalFresh Nutrition Education Program Working With Families In The Community**

This summer the University of California, CalFresh Nutrition Education Program in Glenn County partnered with the Glenn County Office of Education at their “Expect Success Summer Camp”.

Once a week the CalFresh staff hosted nutrition lessons for parents of the student campers. Camp was held at Fairview School in Orland and Willows Intermediate School, Willows.

As a reward to those parents that attended all four weeks, there was a drawing for four families to receive a bag of groceries and a grand prize of a bicycle to promote physical fitness. We received a very generous donation from Walmart in Willows to purchase the bicycle. The winner of the bike was Armida Marquez. Armida and her son Daniel are shown in the picture with Deanna Rogers, University of California CalFresh Nutrition Education Program Representative. # # #
